

# SEG 2017

Beijing, China

## Ore Deposits of Asia: China and Beyond

September 17-20, 2017 Beijing, China

SEG

CUGB

seg2017.org

### CALL FOR ABSTRACTS · Abstract deadline: March 31, 2017

#### CONFERENCE CHAIRS

##### Richard Goldfarb

China University of Geosciences, Beijing (CUGB) and Colorado School of Mines

##### Jun Deng

China University of Geosciences, Beijing (CUGB)

SEG Executive Director

##### Brian Hoal

Technical Program

Larry Meinert, U.S. Geological Survey

Publications

Zhiming Yang, Chinese Academy of Geological Sciences, Beijing

Field Trips

Kezhang Qin, Chinese Academy of Sciences, Beijing

Short Courses

Zhaoshan Chang, James Cook University, Australia

Poster Sessions

Liqiang Yang, China University of Geosciences, Beijing (CUGB)

Marketing/Publicity in China

Jingwen Mao, Chinese Academy of Geological Sciences

Marketing/Publicity Overseas

Nikki Morrison, Society of Economic Geologists (SEG)

Student Activities

Yuling Xie, University of Science and Technology Beijing

Administration/Logistics

Kunfeng Qiu, China University of Geosciences, Beijing (CUGB)

The SEG-CUGB 2017 Conference, the Society's first annual meeting in Asia, will focus on the great deposits of China and neighboring countries, and on the most important new discoveries in this part of the globe.

#### ● Themes:

- Mineral Resources of China
- Giant Deposits of Asia
- New Discoveries in Asia
- Magmatic Ni-Cu-PGE
- Orogenic Au—Tectonic Setting and Genesis
- REE Deposits—Geology, Mineralogy, and Genesis
- Porphyry Provinces of the Western Pacific
- Skarn Deposits—Metal Content and Zonation
- Sediment-hosted Base and Precious Metal Deposits—Genetic Controls on Mineralization
- New Analytical Techniques and Equipment Applied to Ore Deposits
- Ore Deposits of Tibet

#### ● Field Trips in China and Beyond:

- Jiaodong Gold Deposits
- Guizhou Carlin-like Deposits
- Yangtze River Fe-Cu-Au Porphyries/Skarns
- Yunnan Metallogeny—Base Metals, Au, and IOCG
- Sn-W of Southeast China
- Jinchuan Ni-Cu-PGE Ores
- Xinjiang Metallogeny
- Porphyry/Epithermal Deposits of NE China
- Other excursions in Japan, Mongolia, Russia, Indonesia, & Kazakhstan

#### ● Workshops:

- Exploration and Ore Genesis: Base Metals, Carlin, Orogenic Au, Porphyry, Epithermal, Magmatic Ni-Cu, & VMS Deposits
- Techniques: Fluid Inclusions, LA-ICP-MS, Modern Geochronology, & Mineral Spectroscopy
